A 2-days workshop entitled "Object, Artefact, Script" was held in Edinburgh at the eSI, organised by Gabriel Bodard and Stuart Dunn.

More information on the actual workshop (including abstracts and presentations of all invited speakers) can be found [here](#) (the paper I presented can also be retrieved from our [Conference papers](#) section).

Tweets about the event are archived [here](#) (thanks to Gabby), and reports written by attendees can be found [here](#) (thanks to Hugh) and [there](#) (thanks to Alejandro).
